## Recalls

**Recall #** A182202370  
**Recall Date:** 4/18/2019  
**Lower Control Arm Weld**

### Recall Description:

General Motors has decided that a defect which relates to motor vehicle safety exists in certain 2017-2019 model year Chevrolet Trax and Tracker vehicles. In some of these vehicles, a joint in one or both front lower-control arms may have been improperly welded. Over time and in rare cases, an improperly welded joint can fatigue and break, causing the lower-control arm to partially separate from the vehicle.

### Remedy

All lower control arms will be inspected using a gauge tool to determine if they meet manufacturing specifications. Please note, this is for the Trax only in the USA and Canada. Dealers will replace lower control arms that do not pass the gauge inspection.

This recall was open as of the date/time that this report was generated. For more information, or to find out if the recall has been closed, please contact CHEVROLET or visit GM's website.
